Summary

Full-Stack Developer with hands-on experience across the MERN stack (React.js, Node.js, Express.js, MongoDB) and modern tooling including Firebase, Supabase, and Docker. Built and deployed AI-powered SaaS platforms integrating OpenAI APIs, JWT/OAuth authentication, and real-time data workflows. 3 internships; 1st Runner-Up, Alpha Hack 2024.

Technical Skills

Languages: JavaScript (ES6+), SQL, Java
Frontend: React.js, Tailwind CSS, HTML5, CSS3, ShadCN UI
Backend: Node.js, Express.js, REST APIs, JWT Auth, OAuth, SaaS, AI Integration
Databases: PostgreSQL, MongoDB, MySQL, Firebase, Supabase
Tools & DevOps: Git, GitHub Actions, Docker, Vercel, Netlify, Postman
Learning: Next.js, TypeScript, Prisma ORM

Projects

EvolveWeb AI

Jan 2026 – Mar 2026

React.js, Node.js, Express.js, MongoDB, OpenAI API

github.com/Ishika-45/EvolveWebAI

- Built an AI-powered SaaS platform that generates startup website structures and product blueprints from natural language prompts, reducing manual planning time by ~70%.
- Integrated OpenAI APIs for startup analysis and content generation, enabling end-to-end workflow automation across 3 core modules.
- Implemented JWT + OAuth authentication with protected routes and multi-user project management, ensuring secure multi-tenant access.

JobGenie

Sep 2025 – Nov 2025

React.js, Node.js, Supabase, Clerk

github.com/Ishika-45/JobGenie

- Developed a full-stack AI recruitment platform with authentication, role-based job management workflows, and 500+ monthly active users.
- Leveraged Supabase and Clerk for user management and database operations, cutting backend setup time by 40% vs. custom auth.

PlanPilot

May 2025 – Jul 2025

React.js, Firebase, Tailwind CSS, ShadCN UI

github.com/Ishika-45/PlanPilot

- Architected a Kanban task management platform with sprint planning and drag-and-drop workflows, onboarding 100+ active users within 2 months of launch.
- Utilized Firebase for real-time task sync and authentication, achieving sub-200ms data updates across concurrent sessions.

Experience

React.js Intern

May 2025 – Jul 2025

Celebal Technologies

Remote

- Developed 5+ React.js applications (dashboards, e-commerce, productivity tools), reducing component re-renders by 30% through optimized state management.
- Built reusable UI component library and integrated REST APIs, improving codebase maintainability across 3 team projects.
- Delivered PlanPilot as the capstone project — Kanban platform with RBAC and real-time sync, now serving 100+ users.

Web Development Intern

Apr 2024 – May 2024

CodSoft

Remote

- Built 4+ responsive web apps and landing pages using HTML, CSS, JavaScript, and React.js; implemented UI/UX improvements that boosted user engagement by 20%.

Web Developer & Marketing Intern

Sep 2023 – Feb 2024

Electronio.Tech

Mullana

- Crafted UI enhancements and branding assets for an IoT startup; produced 10+ promotional visuals in Canva, contributing to a 30% boost in campaign reach.

Education

Maharishi Markandeshwar (Deemed to be University)

Mullana, Ambala

B.Tech in Computer Science Engineering — CGPA: 8.72

2022 – 2026

Achievements & Certifications

- 1st Runner-Up, Alpha Hack 2024** — Built AI-powered solution competing against 200+ teams nationally.
- Participated in 5+ **national hackathons** including Smart India Hackathon and Intel GenAI Hackathon.
- Certified System Administrator – ServiceNow** (2025).
- Core Team Member, **Robotronics Club** — Led 4 technical events and workshops.
